2026 Program

Quint Whipple
CDT

**8:30am - 9:50am**

Stain Like a Pro: Transforming 3D Pro Zir, AiZir & KrystaFree with Biomic + AI Stain

Learn techniques for achieving lifelike esthetics on next-generation materials. This session covers efficient staining and glazing workflows using Biomic and AI Stain to enhance translucency, texture, and natural character on 3D Pro Zir, AiZir, and KrystaFree. Elevate restorations with predictable, high-impact results.

Instructor Bio

Quint Whipple founded Phoenician Dental Studios in Arizona in 2003, quickly establishing it as a leading cosmetic dental lab. He earned his bachelor's degree in biology from Arizona State University in 1997 and achieved his CDT certification in 2000. Quint has served on the Board of Directors for the American Academy of Cosmetic Dentistry and has contributed significantly through the Professional Education Committee and multiple ad-hoc committees. He joined the Damaged Goods Affiliates in 2013 and was inducted into the Dental Technicians Guild in 2016. Quint is also a Key Opinion Leader, sharing his expertise within the industry.

Dr. Morley Rubinoff
Prosthodontist

**9:50am - 11:10am**

Clinical Failures in Dentistry: Lessons for Dentists and Technicians

This is a retrospective view of bad dentistry and how it impacts on the patient and what the dentist and the technician can do to restore our mistakes.

Instructor Bio

Dr. Rubinoff is a graduate of the Faculty of Dentistry, University of Toronto (1974). Dr. Rubinoff completed a post-doctoral program in Prosthodontics from the State University of New York at Buffalo in 1984. Dr. Rubinoff has served as the President of the Association of Prosthodontists of Ontario, The Association of the Prosthodontists of Canada and is the founding President of the Canadian Dental Protective Association. He has been awarded the Certificate of Merit by the Canadian Dental Association and received a fellowship from the Academy of Dentistry International. Dr. Rubinoff was an instructor/mentor at the Faculty of Dentistry, University of Toronto in the Graduate Department of Prosthodontics. Dr. Rubinoff is a Senior Fellow of the International Team for Implantology (ITI).

Panel Discussion: Status of the Dental Lab Industry in Canada

Instructor Bios

Ali Rezaei, President & CEO, Canadian Dental Labs (Shaw, Protec and Hallmark)

Ali Rezaei is the President and CEO of Shaw Lab Group, the leading network of dental laboratories in Ontario, Canada with 4 full-service laboratories located in the GTA, Kingston, London and Ottawa. Prior to Shaw, Ali was Vice President of Operations and Engineering of Gehl Foods, LLC, a leading North American manufacturer of aseptic dairy products in Wisconsin, USA and advisor to Founders Group of Food Companies, Inc, a family-owned company based in British Columbia, Canada. Prior to these roles, Ali was Vice President of Operations of Golden Boy Foods Inc., a subsidiary of Post Holdings, Inc. (NYSE:POST) and leading manufacturer, marketer and distributor of private label and branded nut and fruit products. Ali has a Bachelor Degree in Mechanical Engineering from Sharif University in Iran and Masters Degree in Management from McGill University in Canada.

Julian Kempnich, Vice President of Operations, Swiss N.F. Metals

Julian Kempnich, Vice President of Operations at Swiss N.F. Metals started working for Swiss N.F. Metals in 1991 after graduating from George Brown College. Julian has focused over 30 years on refining his technical knowledge of the different restorative materials within the industry. Julian conducts technical support overviews on restorative materials, attachment, and implant products, traveling extensively through Canada and the US selling to Dental Labs and Denturists.

Karim Sahil, RDT, MDT

Karim Sahil has earned his RDT, MDT, and acquired his Dental Technology certificate at George Brown College. As a Registered Dental Technologist, he earned a certificate of mastery on all five components of Dental Technology, including ceramics, crown and bridge, dentures, partial dentures, and orthodontics. He gained his Master Dental Technologist certificate from New York, USA, on the study of mandibular physiology, occlusion, and full mouth reconstruction. He maintains a dental laboratory in a dental clinic at Yorkville Village Dentistry. He provides services that include cosmetic dentistry, fixed implant restorations, and advanced full mouth restorative prostheses for dentists and oral specialists. He is also the president of the Association of Dental Technologists of Ontario.

**8:30am - 9:50am**

Digital Workflow For Implant Restoration From Data Acquisition To Production

In this presentation, we will walk through the complete workflow involved in producing All-on-X implant restorations, from planning to final delivery. The session will highlight how Zirkonzahn's latest digital tools can streamline each stage of the process, including:

- ZZ Archive - Efficient case management and data organization
- ZZ Face Scan App - Capturing and integrating facial data seamlessly
- Modifier Bar Module - Designing custom bar frameworks with precision
- High-Speed CAM - Optimizing production with advanced milling strategies
- Material Review - Overview of materials used for long-term success

Join us to explore how these tools come together to create a fully integrated digital workflow for All-on-X

Instructor Bio

Kaveh Shams graduated as a Dental Technician from Lambeth College - in London, UK, in 2010. Since then, he has worked in multiple dental laboratories in London and Toronto. In recent years, his passion for digital dentistry has led him to take responsibility as a CAD-CAM Specialist supporting and coaching dental community members across Canada. He continues serving the dental community as Zirkonzahn's ambassador and branch manager.

Ria Mozhina
RDT

9:50am - 11:10am

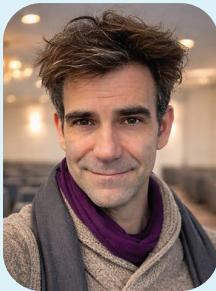

Understanding Intra-oral Scanning, and Your Role in Excellence!

In this session, you are invited to access the latest in 3D technology, specifically in scanners. What do practitioners go through, what makes an excellent scan, and some topics of discussion you could have so that you have excellent case outcomes. Patient care is of the utmost importance, and we will make sure you're well-prepared to tackle any case. Join us for tools you can use, and tips on how to handle a challenge. You already have the knowledge, just need the confidence!

Instructor Bio

For years, Ria has been Central Dental's go-to technical design enthusiast and support for digital products. Prior to joining the team, she honed her skills across several areas while gaining her Registered Dental Technician designation, working at a boutique lab and graduating from George Brown College. Ria has a passion for learning about new digital products and how they work. Helping maximize and streamline clients abilities in the digital world through her on hand experience is what motivates her the most.

Ryan Swift
Co-Founder,
Onekln. Inc.

ØNEKLN

11:10am - 12:30pm

New Developments in Infection Control: Looking Ahead to the Future of Clinical Hygiene

In New Developments in Infection Control: Looking Ahead to the Future of Clinical Hygiene, Ryan Swift examines the evolution of current protocols, identifying critical areas for improvement while introducing new concepts that are reshaping clinical hygiene in professional settings. The presentation explores emerging threats driven by changing microbial landscapes, workflow pressures, and material limitations. As new standards and devices enter the market, effective protocols depend not only on availability, but on proper understanding and application. Emphasizing the importance of clinical certainty, this session connects science, process, and compliance to demonstrate how informed, mindful adoption of new developments can improve safety, performance, and confidence in clinical infection control.

Course Outline

- Current protocols
- Areas for improvement
- New Concepts
- Emerging threats
- Standards
- Clinical Certainty
- New concepts

Instructor Bio

Ryan Swift is a product developer and regulatory consultant with over 20 years of experience working at the intersection of science, manufacturing, and regulation in professional healthcare settings. His work focuses on how chemistry, process design, and material selection directly influence product performance, safety, and regulatory compliance.

A Fellow of the International Academy of Dental-Facial Esthetics (IADFE) and a graduate of the Innovation Alliance Executive Training Program. He is recognized for his practical, science-driven approach and his commitment to environmental responsibility. He is deeply passionate about improving both products and professional practices through better chemistry, smarter processes, and thoughtful design.

Concurrent Design Challenging Or Not?

Completing a crown design on Implant abutment in one project requires some essential knowledge. Here we will go over principals to prevent never ending postproduction adjustments to attain proper fit of the 2 components.

Instructor Bio

Involved in the dental laboratory industry for over 20 years. Specialist in dental CAD/CAM for over 15 years. Certified and trained many others on systems such as Procera, 3 Shape, Lava, Dental Wings, Cerec, Exocad, Dental Softworks, Sum3D, Hyperdent, Dentmill, Roland, Cerec, Imes-Icore and Arum mills. Provided Technical support and sales both remotely and on location across Canada and the USA. Always willing to share experience and knowledge to contribute to the evolution of the Dental CAD/CAM industry.

CD, BSc, DDS, MBA,
MEd

11:10am - 12:30pm

How to Win in The Digital Lab Era

This session explores strategies for dental laboratories and technicians to succeed in an increasingly digital workflow. Topics include integrating digital technologies, optimizing efficiency and accuracy, maintaining quality control, strengthening dentist-lab collaboration, and differentiating your lab through expertise, consistency, and value in a competitive digital marketplace.

Instructor Bio

Dr. Khan grew up in Scarborough, Ontario. After graduating from high school he attended the University of Toronto, Trinity College and graduated with a Bachelor of Science with High Distinction in 1997. He then attended The University of Toronto Faculty of Dentistry and graduated with his Doctor of Dental Surgery in 2001. Dr. Khan served as a dental officer in the Canadian Forces from 1998-2007. Dr. Khan began practicing dentistry in Halifax, Nova Scotia with the Canadian Forces. In the CF he learned a lot through mentorship with dental specialists and advanced dental training courses. After a ten year career in the Canadian Forces, he then moved to Kingston with his wife and life partner Dr. Sohela Vaid in 2007 to pursue studies in Medicine and practice Dentistry.

8:30am - 9:50am

Elevating Your Hybrids, Combination Implant Cases, and Split Bar Bridges with Biomic Opaque

Join Duff Wilson, CDT, as he shares practical techniques for elevating hybrid restorations, combination implant cases, and split bar bridges using Biomic Opaque. This session will focus on improving esthetics, consistency, and predictability while optimizing workflow efficiency—helping you achieve confident, high-quality results in complex implant cases.

Instructor Bio

Duff Wilson, a Certified Dental Technician, has been a dedicated professional in the dental laboratory industry for decades. He began his career at Drake Precision Dental Lab, where he worked from 1994 to 1999, before joining Midstate Dental Lab until 2003. In 2003, Duff founded Wilson Dental Lab in South Carolina, where he continues to deliver exceptional dental solutions. Duff has been a prominent leader in the field, serving as President of the South Carolina Dental Laboratory Association twice. His expertise, commitment to quality, and contributions to the dental community have earned him widespread respect and recognition.

Explore The Latest Technology in Digital Solutions

- AI capabilities in exocad
- True Smile realism
- Advantages in photogrammetry
- Seamless scan to print workflow
- Tips to overcome challenges

Instructor Bio

Alex Chabachevitch is an experienced and successful owner of a medium sized dental lab in the GTA. He has over 20 years of experience managing his lab. The main focus of his workflow being on implantology, crowns, bridges, digital dentistry including digital dentures. Alex is also a partner in Unique Dental Supplies Inc.

11:10am - 12:30pm

Mindset Leadership

This lecture focuses on strategies that when applied create a mindset leadership and the power of small, intentional actions that can lead to meaningful change.

Instructor Bio

Ettore Palmeri was born and raised in Italy until age 11. He has an education background having attended and graduated from the University of Toronto with a B. Ed. He taught at the high-school level and also at YUELI (York University English Language Institute) where he became Head Master and marketing manager of the program. He left YUELI to embrace the media world and is currently President of Palmeri Media Group, a media company dedicated to the dental industry. To help manage the business, Ettore went back to school to complete his MBA and AGDM studies. He loves reading and is an enthusiastic motivational speaker. He has read and listened to over 600 personal development books.
