MASTERING PORCELAIN VENEERS

A COMPREHENSIVE TWO-DAY HANDS-ON PROGRAM

Presented by **Dr. Ed Philips**

2023 DATES: • MAY 19 & JUNE 9
• OCTOBER 27 & NOVEMBER 10

YOUR OWN CUSTOMIZED VENEERS ON YOUR OWN PREPARED MODEL

LOCATION: Courtyard by Marriott Toronto Northeast Markham
7095 Woodbine Avenue, Markham, ON L3R 1A3

\$2,599 +HST

(Includes breakfast, breaks and lunch, free parking)
Note: Please bring your loupes with you to the course.
AGD Subject Code: 780

Dr. Philips' past appointments include Course Director for Aesthetic Dentistry at the University of Toronto, Senior Clinical Instructor for Millennium Aesthetics and author of the book "Your Guide to the Perfect Smile".

Contact: esp@smilejob.com

REGISTER NOW!

COURSE DESCRIPTION

Although patients "request" veneers, many dentists "avoid" them. Finally, a comprehensive two-day program that will completely demystify this controversial and underused treatment modality. The program will prepare you to be able to deal from the simplest to the most challenging cases.

Register Now & Receive the Book
at the Course
"Your guide to the perfect smile" by
Dr. Philips

DAY 1 — CREATE VENEERS

8:30 AM- 12:00PM

- The Evolution of veneer technology
- Hands-on workshop for each participant
- Prepare the anterior maxillary 6 teeth utilizing various prep designs
- Take perfect impressions using the cordless technique of D&D
- Temporize using the three B.S.C techniques

1:00PM – 3:30PM

- Identifying the Three Smile Patterns
- The Ten Artistic & Scientific Principles of Smile Design
- Rate a smile using the Modified Dental Aesthetic Index(MDAI)

DAY 2 — BOND IN YOUR OWN CUSTOMIZED VENEERS

8:30 AM- 12:00PM

- Insertion checklist
- Bond in your own customized veneers

1:00PM – 3:30PM

- Clinical case presentation showing a variety of cases
- Summary of the 10 phases for achieving excellence
- Digital Impressions Demonstration
- Conclusion Q and A Session

Oral Moderate Sedation Refresher Course

Date : 15th September 2023 (8:30am - 4:30pm)

Cost : \$650.00 + HST (Includes breakfast, breaks and lunch, free parking)

Location : Shaw Lab (105 Bentworth Ave Unit 1, North York, ON M6A 1P6)

AGD Subject Code : 340

Description: This course will review various topics related to oral moderate sedation in dentistry. We will review the new sedation standards of the Royal College of Dental Surgeons of Ontario (RCDSO), as well as patient assessment, patient monitoring, as well as the pharmacology of relevant medications used in sedation and dentistry. We will also outline the indications of sedation and anaesthesia in dentistry, cardiovascular and respiratory physiology, as well as medical emergency management in the dental office.

- Learning Objectives:** After attending this seminar, participants will have the knowledge to
- Appreciate that sedation and anaesthesia is a continuum
 - Appreciate the new changes to the RCDSO Standard of Practice in the "Use of Sedation and General Anaesthesia in the Dental Office."
 - Be familiar with patient monitoring and patient assessment for oral moderate sedation
 - Appreciate basic cardiovascular and respiratory physiology
 - Be familiar with sedative medications used in dentistry, in particular nitrous oxide and benzodiazepines
 - Be familiar with local anaesthetic pharmacology and safety
 - Manage medical emergencies in the dental office

Presented by:
Dr. Soheil Khojasteh

Dr. Soheil Khojasteh obtained his Bachelor of Health Sciences at McMaster University in 2010, and then he went on to complete his Doctor of Dental Surgery degree at the University of Toronto in 2014. After dental school, Soheil enrolled in the dental anaesthesiology specialty program at the University of Toronto, Faculty of Dentistry.

Soheil is a specialist in dental anaesthesia and a Diplomate of the American Dental Board of Anaesthesia. He is the immediate past President of the Ontario Dental Society of Anaesthesiology, and the current Vice President of the Canadian Academy of Dental Anaesthesiologists. He is a clinical instructor at the University of Toronto, Faculty of Dentistry, in the Department of Anaesthesia, and he has presented to his colleagues in anaesthesia and dentistry at numerous conferences. Soheil currently practices the Procedural Team Anaesthesia model, in which he provides comprehensive dental treatment to his patients under general anaesthesia and deep sedation.

2 DAY HANDS -ON | DR. PIERRE OBEID

"A to Z" Lessons in Digital Dentistry

Course Summary

This course covers everything you and your dental team need to know about digital dentistry and will answer your digital questions and concerns! Learn about the basics, right up to advanced methods of "cooking with" CBCT scans, optical scanning techniques, free software to plan and design different dental prostheses, and 3D printing techniques. You will learn how to 3D print dental models, night guards, and surgical guides all at low cost. Conventional analog and digital "cooking recipe" workflows will also be discussed.

Each participant will experience "LIVE HANDS-ON" techniques to demonstrate the use of optical scanners, software, and 3D printers and fabricate their own surgical guides and night guards. You will also be provided with files containing DICOM and STL files of demonstrated cases for practice. Finally, you will be given multiple "RECIPES" to print in your practice to simplify digital techniques for you and your assistants to best learn from all of these technologies!

This course will focus on various intra-oral scanners, 3D printers and resin materials. Don't worry if you own something else, the digital workflows will be very similar or identical in most cases.

\$1,899.00 + Tax

Limited Seating.

Objectives:

Day 1:

- understand the basic fundamentals of 3D dentistry
- learn about the armamentarium needed in 3D dentistry
- learn the importance of CAD software in the planning and designing stage

Day 2:

- understand how to set up and use your 3D scanner
- learn about the vast resin material options and their dedicated uses
- gain experience in intra-oral scanning strategies and techniques

2 Full-Days (including Hands-on Workshop sessions)- In-Person Only

DR. PIERRE OBEID

Dr. Mario Rotella
F.R.C.D.(C)

Course Description:

Crown and bridge is the bread and butter of general practice and is routinely recommended for patients requiring indirect restorations. Advances in material science and CAD / CAM technologies have revolutionized and simplified the treatment procedures.

Forward thinking clinicians must negotiate this rapidly changing landscape and evaluate these new advancements that have the potential to improve and enhance the desired treatment in both interim and the final phase of treatment outcome. With such an increase in demand in procedures comes a desire to simplify the experience in regards to

- Patient management skills, treatment acceptance,
- Chair side fiber post and cores,
- Crown and bridge preparation, temporization, final impression, lab communication, occlusion, and final prosthesis.

* Please bring your loupes with you to the course

Virtual Didactic and Hands-On Objectives:

- Post and core indications and usage
- Learn efficient techniques in crown and bridge provisionalization.
- Overview of tooth preparation. Do's and Don'ts
- Pontic designs, soft tissue management, balance with pink and white esthetics.
- Crown lengthening vs gingivectomy (indications and rationale). (Restorative challenges)
- Digital and conventional impression techniques and tissue retraction.
- Shade selection, Lab scripts, lab communication,
- Ceramic selection
- Cements and cementation techniques.

Hands-On:

- Chair side post preparation in endodontic treated teeth and fiber post cementation.
- Core build up.
- Single crown and 3 unit FPD
 - Tooth preparation:
 - Impression (Digital and conventional) (3 Shape)
 - Soft tissue management.
 - Temporization.
 - Lab communication (lab scripts, material selection)

Platelet Rich Fibrin; Basic & Advanced Techniques

\$499+Tax

October 27th, 2023

Location: **Courtyard by Marriott Toronto Northeast/Markham**
7095 Woodbine Ave, Markham, ON L3R 1A3

9AM - 4PM ; 3 hours Lecture, 3 hours Hands-On.

Breakfast, Break and Lunch included

AGD Subject Code: 690

To register contact: events@palmeripublishing.com

What is PRF (Platelet Rich Fibrin); A matrix concentrate of autologous platelets, leukocytes and fibrin. Gain predictable regeneration and accelerated healing for an overall increase of treatment success with our course in PRF applications to various implant surgical procedures.

Benefits of using PRF in wound healing.

Platelet-rich fibrin is a second generation platelet concentrate which can enhance both soft and hard-tissue healing. Its advantages over platelet-rich plasma include ease of preparation, ease of application, minimal expense, and lack of biochemical modification (no bovine thrombin or anticoagulant is required). This considerably reduces the biochemical handling of blood as well as risks associated with the use of bovine derived thrombin. PRF also contains physiologically available thrombin that results in slow polymerization of fibrinogen into fibrin which results in a physiologic architecture that is favorable to wound healing.

- Better Healing.
- Predictable grafting.
- Subjectively less pain.

Course Outline:

- History of blood-based biologics and their use in dentistry.
- What is PRF?
- Lecture about Dr. Choukroun and PRF.
- Clinical Applications; Basic & Advanced.
- Lecture about phlebotomy techniques.
- Hands-on component to train the dentist and his/her staff- on collection of blood and manufacturing PRF.
- Practice your IV skills on anatomical correct models before collecting blood.

Dr. Wajid Khan

Dr. Khan grew up in Scarborough, Ontario. After graduating from high school he attended the University of Toronto, Trinity College and graduated with a Bachelor of Science with High Distinction in 1997. He then attended The University of Toronto Faculty of Dentistry and graduated with his Doctor of Dental Surgery in 2001. Dr. Khan served as a dental officer in the Canadian Forces from 1998-2007. Dr. Khan began practicing dentistry in Halifax, Nova Scotia with the Canadian Forces. In the CF he learned a lot through mentorship with dental specialists and advanced dental training courses. After a ten year career in the Canadian Forces, he then moved to Kingston with his wife and life partner Dr. Sohela Vaid in 2007 to pursue studies in Medicine and practice Dentistry.

He has been teaching BOTOX COSMETIC® Courses for more than 15 years and his teaching methodology is highly regarded in the industry, resulting in countless successful trainees across Canada and the United States.

CREATING BEAUTIFUL SMILES BY MASTERING COMPOSITE VENEERS

ADVANCED COMPOSITE RESTORATIONS AND VENEERS WITH DR. ASEFZADEH

Date: **NOV 3-4, 2023**

Price: **\$2,100**

CE hours: **13 CE**

Location: **SHAW LAB GROUP**

105 Bentworth Ave Unit 1, North York, ON M6A 1P6

This comprehensive **2-day** hands-on program is designed for dental professionals who want to enhance their skills and knowledge in cosmetic dentistry.

The course is aimed at providing participants with practical training in **anterior composite restorations** and **veneers**. You will get hands-on experience in the dental lab as well as lectures and demonstrations from Dr. Asefzadeh.

The **first day** of the course focuses on **anterior composite restorations**, where participants will learn about the materials, techniques, and principles of various anterior composite restorations. It will cover topics such as:

Basic principles of composite restorations

Practical and applicable tips for smile design, Shade selection, Creating anatomy of anterior teeth on typodonts along with layering technique, etc.

The **second day** of the course focuses on **cosmetic treatments** including **Veneers, FRC bridges** and **teeth whitening** where participants will learn about the preparation, design, and placement of anterior veneers. It will cover topics such as:

Veneer Indications and proper case selection, Proper composite and bonding selection for aesthetic treatments to provide long lasting retention and polish. Tooth preparation on **6 anterior teeth, etc.**
Indications and contraindications of **bleaching**

Participants will have the opportunity to work on simulated models under the guidance of Dr. Asefzadeh, a renowned cosmetic dentist with years of experience in the field.

The course aims to enhance the participants' cosmetic dentistry skills, improve patient outcomes, and increase the success rates of their anterior composite and veneer restorations.

Course Objectives:

- Introduction to Anterior Composite Restorations and Composite Veneers
- Preparation for Composite Restorations and Veneer Placement
- Finishing and Polishing
- Maintenance and Repair
- Bleaching and Teeth Whitening
- FRC bridge indications
- Case Studies

**Course materials and demo instruments for hands-on will be provided to the attendees.*

Dr. Asefzadeh received his DDS and MSc in Restorative and Esthetic dentistry from Tehran University with honours and has 25 years of experience practicing cosmetic dentistry.

Past Chairman of Restorative Dept., Shahid Dental School and has won three national research awards.

He is the author of three books in Restorative Dentistry and is a very skilled and passionate lecturer and is the Instructor of International Center for Dental Education (Ivoclar Vivadent) in Iran. He was the chairman of the 9th Congress of Cosmetic & Restorative Dentistry in 2008.

Modern Endodontics

From Diagnosis To Restoration With Hands On Training

with **Dr. Rony E. Dagher**
B.Sc., DDS, M.Sc.(Cert. Endo), FRCD(C)
Specialist in Endodontics and Traumatology

Location: Courtyard by Marriott Toronto Northeast/Markham 7095 Woodbine Ave., Markham, ON L3R1A3	Date: November 3 rd , 2023 CE: 7 CE Hours AGD Subject Code: 070	Fees: \$749 + HST Sponsors:  
--	---	--

Concepts Covered

Lectures: 8:30AM to 12:30PM

- Diagnosis
- Patient management
- Pain control
- Fundamentals of rotary instrumentation
- Latest in reciprocation techniques
- State of the art carrier-based obturation

Hands-On: 1:30PM to 4:30PM

- Hands-on instrumentation and obturation

Attendees Must Bring

- 2-3 Accessed Teeth
- Loupes

Course Outline

This course will teach you which cases to treat predictably, and which cases to refer out for proper management. It introduces you to the fundamental concepts in rotary endodontics, regardless of the system you currently use. It will discuss diagnostic skills you should have to properly zero in on the patient chief complaint.

This course will reinforce the SOAP concepts in achieving proper diagnosis, and assess case difficulty and learn when to treat and to refer. Review local anesthesia techniques to help you achieve proper pain control. Cover and detail proper handling of endodontic procedure from isolation to access, canal location, instrumentation, disinfection and obturation details.

The course objectives will be for GPs to become confident in diagnosis, anesthesia, anatomy, instrumentation, irrigation and obturation.

The hands-on component will involve various Tulsa rotary systems and products.

Great emphasis will be given to diagnosis, case selection, proper anesthesia, glide path management and the efficient and safe use of reciprocation to create ideal shapes to allow proper and thorough disinfection of the canal space.

About the Speaker

Dr. Rony Dagher is an Endodontist and a fellow with the Royal College of Dentists of Canada, who maintains a private practice in Mississauga Ontario Canada.

He is a graduate from the University of Toronto with a Bachelor of Science degree and obtained his DDS from Case Western Reserve University.

He attended the Toronto General Hospital surgical residency program and practiced general dentistry for 7 years prior to enrolling and completing a specialty Master's degree in Endodontics at the University of Toronto. Dr. Dagher has served as an instructor at both the undergraduate and graduate endodontic departments at the University of Toronto. He has served as an Endodontic examiner for the Royal college of Dentists of Canada.

Dr. Dagher holds a special interest in Dental Traumatology and regenerative Endodontics. He currently lectures on many Endodontic topics including rotaries, trauma, disinfection and regeneration. He is currently a member of numerous endodontic and dental associations and societies.

PERIODONTICS FOR THE GP

3 Day Course, 2023 with Dr. Parvaneh Bahrami

November 24-26, 2023

3 DAYS COURSE: **\$2,899** Plus HST
INDIVIDUAL COURSE DAY: **\$1,199** Plus HST
BREAKFAST, BREAK AND LUNCH INCLUDED
7 CE/DAY
AGD SUBJECT CODE: 490

LOCATION: SHAW LAB
105 Bentworth Ave Unit 1,
North York, ON M6A 1P6

MODULE 1

Day 1: Periodontal Disease

- Etiology and diagnosis procedures
- The introduction of the new classification system
- Prognosis and Treatment Plan
- Non-surgical and surgical treatment option
- Periodontal maintenance program
- The principles of functional crown lengthening

Hands-On component* :

- Review Flap and Suturing Principles
- Osseous Resective Periodontal Surgery distal wedge

MODULE 2

Day 2: Soft Tissue Grafting

- Biologic principles and Etiology
- Diagnosis: Old and New Classification
- Indications, Goals and Objectives
- Case selection and treatment plan
- Soft tissue grafting procedures (FGG,CTG)

Hands-On component* :

- Free Gingival Grafting (FGG)
- Connective Tissue Grafting (CTG)

*You are required to bring loupes and additional instruments to the course, at your own cost.

MODULE 3

Day 3: Hard Tissue Grafting

- Biologic principles
- Goals and Objectives
- Indications and Treatment Plan
- Review different types of Bone grafts and membranes
- Complications

Hands on component* :

- Socket preservation
- Guided bone regeneration for treating periodontal bony defects

THE SPEAKER

Dr. Parvaneh Bahrami obtained her Master of Science in Periodontology and Implant Surgery in 2012 from the University of Toronto.

Dr. Bahrami is board-certified in Canada and USA and a Diplomate of the American Academy of Periodontology. She is a clinical instructor at the University of Toronto and practices as a periodontist and implant surgeon at Prosthodontics Associates.
