COURSE OUTLINE

This course introduces dentists to the essential principles and clinical use of Botox in dentistry. Participants will learn key orofacial anatomy, proper patient assessment, safe injection techniques, and practical skills through interactive sessions and hands-on training with live patients.

By taking this course, you can earn certification to administer Therapeutic Botox in Ontario.

COURSE OBJECTIVES

1. Understand the pharmacology and mechanism of Botox.
2. Identify and describe the anatomical structures of the face pertinent to Botox administration.
3. Demonstrate proficiency in patient assessment and selection criteria for Botox treatment.
4. Master the techniques for administering Botox injections safely and effectively in the orofacial area.
5. Learn how to manage and minimize complications associated with Botox injections.
6. Discuss ethical and legal considerations relevant to the use of Botox in dental practice.
7. Explore the potential applications of Botox beyond cosmetic enhancements, including therapeutic uses in dentistry.

** Each doctor is encouraged to bring in their own patient so they can follow up with them in the future.*
