9:00am-10:00am

AM BREAK

Grand Villa Ballroom 3

10:00am-10:30am

Beyond the Polish: Guided Biofilm Therapy as the New
Standard of Care
with Penny Hatzimanolakis, *RDH*

10:30am-11:30pm

Mastering Scanning Techniques using the Shining 3D Elite
Scanner
with Alex Chabachevitch, *RDT*

11:30am-12:30pm

LUNCH BREAK

Grand Villa Ballroom 3

12:30pm-1:30pm

Beyond Implants: The Art and Science of Digital Dentures
with Kaveh Shams, *DT*

1:30pm - 2:30pm

PM BREAK

Grand Villa Ballroom 3

2:30pm-3:00pm

RodinSoft Liner: Best Practice & Applications
with Mark Chan, *DD*

3:00pm - 4:00pm

Fixed Full Arch Zirconia Prosthesis; a Case Journey
with Dr. Waji Khan

4:00pm-5:00pm

**BREAKFAST &
REGISTRATION**

8:30am-9:00am
Grand Villa Ballroom Foyer

Sung Ho Kwon, RDT

9:00am - 10:00am
Grand Villa Ballroom 1

**Single to Full Arch Digital Workflow:
Use These Powerful tools!**

- Easy to understand tips and know-how to understand various workflows
- Various topics including Blender & Exocad softwares will be covered.
- Beneficial tool, Bite Finder will also be covered.
- 3D printing technology and how it can make workflows more predictable

About the Speaker:

Sung Ho Kwon is from South Korea and graduated and acquired a license in 2009. He later expanded his knowledge by acquiring RDT in 2015 in Ontario, Canada. He continuously takes various educational courses to be more knowledgeable in dentistry. He holds a lab consultant position for an implant course, "Focus Academy". He is the owner of the well-established "Quantum Creations" in Ontario, Canada.

Jean Chiha, MDT

10:00am - 11:00am
Grand Villa Ballroom 1

Streamlining Beauty: Katana Zirconia in Everyday Practice

Discover how simplicity meets sophistication with Katana Zirconia. In this lecture, we'll explore how to make the right material choices for achieving high-aesthetic results with streamlined protocols. From case planning to final finish, I'll walk you through the full-mouth workflow step-by-step including nesting, milling, sintering, and finishing- demonstrating how Katana Zirconia streamlines the process without compromising beauty.

About the Speaker:

Jean Chiha is the owner of North Star Dental Laboratory and Milling Center, Santa Ana, CA and has served as the former president of the DLAOC from 2013 to 2016. He is a 1985 graduate of Institute Dento Technic, a private dental technology school in France. Chiha lectures internationally on dental communication, case planning, and best practices for case completion. Jean also writes and is featured periodically in technical articles for dental magazines globally.

AM BREAK

11:00am-11:30am
Grand Villa Ballroom 3

Christian Ferrari, MDT

11:30am - 12:30pm
Grand Villa Ballroom 1

Progress and Innovations in the Field of Dental Ceramics

The professional world is changing rapidly. Our laboratories present a very different face from those I knew when I started. The advent of digital technology has considerably changed the overall vision of our porcelain rehabilitations. Until now, aesthetic crowns in traditional ceramic, with low coverage thicknesses, seemed to be a challenge that was very often doomed to failure. Over the past 7 years or so, new porcelain has emerged, in the form of pastes, and powders have become a thing of the past. With an extremely fine grain size, these paste porcelains have a strong covering power, which allows, even at very low thickness, to provide color, saturation and depth. With an aesthetic result that is more than satisfactory. During my conference, by illustrating some clinical cases, I will present my ways of approaching these ceramic pastes on a daily basis, the different applications and the many benefits. I will also present the new CADback software and its advantages.

About the Speaker:

Christian Ferrari Dental ceramist, opinion leader, internationally recognized speaker, Christian Ferrari is a dental technician from France, recently arrived in Canada. After spending ten years in Switzerland with renowned ceramists, he opened his first laboratory in France. Very quickly was recognized for his sense and mastery of aesthetics. He was approached by an international company and contributed to the development of ceramic products, including his own porcelain line. Equally recognized for his photographic talents, he contributed to the development of many works. In 2008, he created his own dental Academy, where he trained many ceramists from many different countries. His passion, but mostly his curiosity is what today pushes him to explore the potential for new generations of ceramic pastes... «Ceramotion One Touch»

LUNCH BREAK

12:30pm-1:30pm
Grand Villa Ballroom 3

Alex Chabachevitch, RDT

1:30pm - 2:30pm
Grand Villa Ballroom 1

Explore the latest technology in digital solutions

- AI capabilities in exocad
- True Smile realism
- Advantages in photogrammetry
- Seamless scan to print workflow
- Tips to overcome challenges

About the Speaker:

Alex Chabachevitch is an experienced and successful owner of a medium sized dental lab in the GTA. He has over 20 years of experience managing his lab. The main focus of his workflow being on implantology, crowns, bridges, digital dentistry including digital dentures. Alex is also a partner in Unique Dental Supplies Inc

Andreas Klie, RDT

2:30pm - 3:30pm
Grand Villa Ballroom 1

Finding new solutions to our everyday challenges in the everchanging Dental World

- Finding the perfect restorative solutions for your patients, an overview of various options addressing, Aesthetics, Hygiene and Strength
- Discuss how the introduction of CAD/CAM has impacted restorative workflow options
- How clinicians can keep up with the rapid advancements made in the dental industry. This "Dental Jungle" is a huge challenge for many clinicians, so many questions and unknowns. We will address some of these solutions for clinicians to help them navigate this daunting road of the future, including nesting, milling, sintering, and finishing- demonstrating how Katana Zirconia streamlines the process without compromising beauty.

About the Speaker:

Andreas is a Registered Dental Technologist with over 35 years of experience in the dental field. Andreas graduated from Technikon School of Dental Technology in South Africa in 1986. He founded La Lucia Dental Laboratory in 1991 and operated it until he immigrated to Canada in 2001. In 2005, he became an RDT in Ontario. Andreas plays a major role in Panthera Dental's strategy to incorporate more technical guides and articles into its portfolio. His experience as a dental technologist, combined with his field experience, allows him to offer customers precise and detailed solutions on a more technical level.

PM BREAK

3:30pm-4:00pm
Grand Villa Ballroom 3

Kaveh Shams, DT

4:00pm - 5:00pm
Grand Villa Ballroom 1

Minimal Thickness, Maximum Aesthetics, Exploring Prettau® Skin® Veneers in Clinical and Lab Practice

Discover how ultra-thin zirconia veneers can redefine aesthetic dentistry by joining DT Kaveh Shams for a comprehensive session introducing the complete protocol for creating 0.2 mm Prettau® Skin® veneers using minimally invasive techniques. Based on real patient cases, the lecturer will walk through each step of the workflow – from shade matching and custom preparation guides to layering and final placement. The lecture also includes a sneak peek at Zirkonzahn in-house software that streamlines the digital design process.

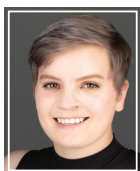

About the Speaker:

Kaveh Shams graduated as a Dental Technician from Lambeth College – in London, UK, in 2010. Since then, he has worked in multiple dental laboratories in London and Toronto. In recent years, his passion for digital dentistry has led him to take responsibility as a CAD-CAM Specialist supporting and coaching dental community members across Canada. He continues serving the dental community as Zirkonzahn's ambassador and branch manager.

BREAKFAST & REGISTRATION

8:30am-9:00am
Grand Villa Ballroom Foyer

Pam Rehm, RDT

9:00am - 10:00am
Grand Villa Ballroom 2

Optimizing Digital Denture Design for Milling: Material Insights and Workflow Efficiency

As digital denture technology evolves, milling plays a crucial role in modern workflows. This session delves into designing for milling, exploring material considerations, and the expanding options available. Discover how to enhance design efficiency, precision, and long-term success while navigating the strengths and limitations of various materials. Whether you're new to milling or outsourcing your manufacturing, gain insights to make informed decisions that align with your clinic's requirements.

About the Speaker:

Pam Rehm is a Registered Dental Technologist with over a decade of experience in removable workflows and has specialized in digital solutions since 2014. She currently works with Argen Canada, focusing on integrating digital manufacturing with clinical and patient workflows to support denture clinics transitioning from analog methods.

AM BREAK

10:00am-10:30am
Grand Villa Ballroom 3

Penny Hatzimanolakis, RDH

10:30am - 11:30am
Grand Villa Ballroom 2

Beyond the Polish: Guided Biofilm Therapy as the New Standard of Care

Learning Outcome:

- Explain the scientific basis of biofilm management and the rationale for using Guided Biofilm Therapy (GBT).
- Differentiate between traditional prophylaxis methods and GBT in terms of biomaterial safety, patient comfort, efficacy, and outcomes.
- Demonstrate how to select appropriate powders, nozzles, and instrumentation for various clinical scenarios, including periodontal maintenance, implants, and orthodontic cases.

About the Speaker:

Since 1994, **Penny** has specialized in periodontics and prosthodontics and has been part of the University of British Columbia's dental education community since 2002. Currently pursuing a doctorate in Educational Leadership at UBC, she leads Elevate Oral Health and Learning Centre while contributing as a published researcher, advisor, and internationally recognized speaker.

Alex Chabachevitch, RDT

11:30am - 12:30pm
Grand Villa Ballroom 2

Mastering Scanning Techniques using the Shining 3D Elite Scanner

Live Demo

About the Speaker:

Alex Chabachevitch is an experienced and successful owner of a medium sized dental lab in the GTA. He has over 20 years of experience managing his lab. The main focus of his workflow being on implantology, crowns, bridges, digital dentistry including digital dentures. Alex is also a partner in Unique Dental Supplies Inc

LUNCH BREAK

12:30pm-1:30pm
Grand Villa Ballroom 3

Kaveh Shams, DT

1:30pm - 2:30pm
Grand Villa Ballroom 2

Beyond Implants: The Art and Science of Digital Dentures

As minimally invasive approaches gain momentum in modern dentistry, there remains a significant population in need of full-arch restorations following complete tooth loss. This lecture presents a smart and patient-centred alternative to implant-supported prostheses: digitally designed full dentures. From intraoral scanning to final delivery, we will walk through the full digital workflow, highlighting each stage, including a detailed look at bonding denture teeth to the base.material consideratio

About the Speaker:

Kaveh Shams graduated as a Dental Technician from Lambeth College – in London, UK, in 2010. Since then, he has worked in multiple dental laboratories in London and Toronto. In recent years, his passion for digital dentistry has led him to take responsibility as a CAD-CAM Specialist supporting and coaching dental community members across Canada. He continues serving the dental community as Zirkonzahn's ambassador and branch manager.

PM BREAK

2:30pm-3:00pm
Grand Villa Ballroom 3

Mark Chan, DD

3:00pm - 4:00pm
Grand Villa Ballroom 2

RodinSoft Liner: Best Practice & Applications

This presentation explores the **best practices and applications of RodinSoft Liner**, a versatile material designed for optimal denture adaptation and patient comfort. It will cover key benefits such as **improved fit, durability, and biocompatibility**, along with step-by-step guidelines for application in both **traditional and digital workflows**. The session will also discuss clinical indications, **troubleshooting techniques**, and **long-term maintenance** to ensure successful outcomes. Attendees will gain practical insights into maximizing the effectiveness of **RodinSoft Liner** in modern prosthetic dentistry.

About the Speaker:

Mark Chan received his diploma from Denturism in Toronto at George Brown College with honours. Currently Mark is practicing in Ontario with a main focus on high-end removable and implant prosthetics. With a passion for both technical and clinical techniques he is certified in Bio-logic, BPS and SDC denture concepts and is a ZunstZhanWerk "Art of Denture" award winning Denturist, he is a sought after consultant and opinion leader in the Denturist and Lab community.

Dr. Waji Khan, BSc, DDS, MBA, MEd

4:00pm - 5:00pm
Grand Villa Ballroom 2

Fixed Full Arch Zirconia Prosthesis; a Case Journey

A Case Discussion

About the Speaker:

Dr. Waji Khan is a graduate of the University of Toronto Faculty of Dentistry (2001). Dr. Khan served as a dental officer in the Canadian Armed Forces from 1998-2007 and began his practice there. After a ten-year career in the Canadian Armed Forces, he then moved to Kingston with his wife and life partner, Dr. Sohela Vaid. Dr. Khan enjoys working in all areas of dentistry with a particular interest in cosmetic/esthetic, implant, sedation, restorative, orthodontic and surgical dentistry to improve oral health and boost confidence. He is dedicated to providing oral health care in a comfortable and welcoming environment.
