

HANDS-ON

By World-Renowned
Dr. Rick Ferguson

NOVEMBER 8TH, 2025:

**3D Printing in the Dental practice
– Current Applications**

This course is for Dentists Level : Basic – Intermediate

Course Description:

I will present an overview of Dental 3D printing including materials, printers, types of appliances and workflows..

Course Objectives:

Upon Completion of this course, the participant should understand the current applications for 3D printing in dentistry and specifically in a clinical dental practice.

3D printing is set to revolutionize how we practice dentistry. We will discuss the variety of dental applications including surgical guides, Bite splints and nightguards, prototypes, permanent restoration such as inlays, onlays and crowns, dentures etc

Course Outline:

- Types of 3D printers including pricing and applications for each
- Hands on Surgical Guides printing
- Hands on Denture printing
- Hands on Temporary restoration printing
- Proper printer hygiene
- Hands on staining exercise

Dr. Rick Ferguson

Dr. Rick Ferguson has been involved in teaching implant dentistry for the last 32 years and has lectured in every major city in the United States and internationally in many countries. He has placed and restored over 10,000 dental implants and maintains a private practice with his wife Dr. Katherine Ferguson in Davie, FL emphasizing dental implants as well as a home in Vancouver BC . They also teach a live surgery course and have been attended by thousands of dentists. More recently he has been a pioneer in developing 3D printing techniques for dentistry.
