# SPECTRUM DAY HALIFAX 2024

Breakfast & Registration COMMONWEALTH BALLROOM A 8:30am-9:00am

**Neodent Implants, 40 Years of Innovation in Design. How Can You Use This in Practice?** 9:00am-9:50am  
with Dr. Waji Khan, CD, BSc, DDS, MBA, MEd

**Advanced Techniques In Micro-Layering Using Ceramotion Built For Ceramists** with Karim Sahil, RDT 9:50am-10:40am

AM BREAK COMMONWEALTH BALLROOM A 10:40am-11:10am

**Implant Overdentures, Treatment and Design** 11:10am-12:00pm  
with Dr. Corey Felix, BSc, MSc, DDS

LUNCH BREAK COMMONWEALTH BALLROOM A 12:00pm-1:00pm

**Understanding IntraOral Scanning** with Lisa Coffin, DD 1:00pm-1:50pm

**The “Dynamic” Approach to All on X Scans** 1:50pm-2:40pm  
with Mark Chan, DD

PM BREAK COMMONWEALTH BALLROOM A 2:40pm-3:10pm

**AI Digital Design and Fabricate Dentures & Night Guards** 3:10pm-4:00pm  
with Alex Chabacevitch, RDT

**Holistic Infection Control: Challenging Perspective, Changing Practice** with Ryan Swift 4:00pm-4:50pm

8:30am-9:00am  
COMMONWEALTH  
BALLROOM A

**Dr. Waji Khan**  
CD, BSc, DDS, MBA, MEd

9:00am - 9:50am  
1 CE

### Neodent Implants, 40 Years of Innovation in Design. How Can You Use This in Practice?

This course will highlight how Neodent implants have come on to the global stage with innovation and technology to become one of the premier implant brands in the world. The presentation will highlight how the unique features of the brand can assist the practitioner in providing single implant and full arch solutions. There is no such thing as a perfect implant however this one comes close.

#### About the Speaker:

Dr. Waji Khan is a graduate of the University of Toronto Faculty of Dentistry (2001). Dr. Khan served as a dental officer in the Canadian Armed Forces from 1998-2007 and began his practice there. After a ten-year career in the Canadian Armed Forces, he then moved to Kingston with his wife and life partner, Dr. Sohela Vaid. Dr. Khan enjoys working in all areas of dentistry with a particular interest in cosmetic/esthetic, implant, sedation, restorative, orthodontic and surgical dentistry to improve oral health and boost confidence. He is dedicated to providing oral health care in a comfortable and welcoming environment.

# SPECTRUM DAY HALIFAX

**Karim Sahil, RDT, MDT**

**9:50am - 10:40am**  
**1 CE**

## **Advanced Techniques In Micro-Layering Using Ceramotion Built For Ceramists**

In this seminar we will be discussing,

- Introduction to ceraMotion and ceraMotion NoLimits and Pink
- Advantages of micro-layering using ceraMotion
- Fully exploiting the potential of micro-layering with ceraMotion CADback
- Multi layering using careMotion 2d and 3d pastes to create cosmetic cases.
- Successful case studies using ceraMotion.

### **About the Speaker:**

Karim Sahil RDT, MDT has earned his RDT, MDT, and acquired his Dental Technology certificate at George Brown College. As a Registered Dental Technologist, he earned a certificate of mastery on all five components of Dental Technology, including ceramics, crown and bridge, dentures, partial dentures, and orthodontics. He gained his Master Dental Technologist certificate from New York, USA, on the study of mandibular physiology, occlusion, and full mouth reconstruction. He maintains a dental laboratory in a dental clinic at Yorkville Village Dentistry. He provides services that include cosmetic dentistry, fixed implant restorations, and advanced full mouth restorative prostheses for dentists and oral specialists. He is also the president of the Association of Dental Technologists of Ontario.

**AM BREAK**

**10:40am-11:10am**  
**COMMONWEALTH**  
**BALLROOM A**

# SPECTRUM DAY HALIFAX

**Dr. Corey Felix**  
BSc, MSc, DDS

**11:10am - 12:00pm**  
**1 CE**

## **Implant Overdentures, Treatment and Design**

Lecture and discussion on the techniques necessary to make complete and partial implant retained overdenture prostheses using the Straumann NovaLoc and OptiLoc systems. Case selection, treatment planning, surgical considerations and treatment protocols will be discussed. Appropriate selection of abutments, impression copings and prosthetic components will be taught for overdenture prostheses. This lecture is designed to provide a theoretical knowledge of all necessary abutments and prosthetic components for overdenture prostheses.

### **About the Speaker:**

Dr. Corey Felix graduated from Dalhousie University dental school in 2007 and began his dental career with the Canadian Armed Forces. Over the years, he has acquired a passion for dental and implant surgery and now has a multi-location practice limited to these services. He has an extensive research background and is keen to remain on the cutting edge of implant dentistry.

Prior to dental school, Dr. Felix completed a BSc in Biochemistry and an MSc in Pharmacology, and is currently enrolled in a Master's degree in Oral Implantology.

Dr. Felix was previously an instructor at Dalhousie University, in both the School of Pharmacy and School of Dentistry. His current areas of interest within dentistry and 3D digital planning and guided surgery in addition to management of implant-related problems.

**LUNCH BREAK**

**12:00pm-1:00pm**  
**COMMONWEALTH**  
**BALLROOM A**

# SPECTRUM DAY HALIFAX

**Lisa Coffin, DD**

**1:00pm - 1:50pm**  
**1 CE**

## **Understanding IntraOral Scanning:**

**How this revolutionary piece of equipment is strengthening the bond between Clinician and Laboratory**

Intraoral scanning and 3D printing together have revolutionized dentistry by providing more efficient, accurate, and patient-friendly solutions for various dental procedures. This technology has also transformed the relationship between clinicians (Dentists & Denturists) and Dental Laboratories. Improved communication and with enhanced collaboration allow for precise customization all while ensuring faster turn around times. Discover how a simple integration of scanning equipment is possible and profitable for all team members.

## **About the Speaker:**

Lisa Coffin has been practicing the art of Denturism since graduating from NAIT in 2010. She has owned and operated a denture clinic as well as associated in several provinces across Canada. Her focus for the past 4 years has been learning the different Digital Denture workflows and the impact they will have on the advancement of removeable prosthetics. Lisa strives for knowledge and is passionate to learn and share this information with other like-minded dental professionals.

# SPECTRUM DAY HALIFAX

**Mark Chan, DD**

**1:50pm - 2:40pm**  
**1 CE**

## **The “Dynamic” Approach to All on X Scans:** Featuring the Reference scan system from Dynamic abutment, and Rodin Titan

Session will show the benefits to reference scan technique. Why this can be used as an alternative to photogrammetry

- How to scan and what to look out for
- Scanning the buccal bite for same day or next day load protocols
- Introducing Rodin Titan sculpture for a long term temporary and aesthetic prototyping
- Restorative options for the final

### **About the Speaker:**

Received his diploma from Denturism in Toronto at George Brown College with honours. Currently, Mark is practicing in Ontario with a main focus on high-end removable and implant prosthetics. With a passion for both technical and clinical techniques he is certified in Bio-logic, BPS and SDC denture concepts and is a KunstZhanWerk “Art of Denture” award winning Denturist, he is a sought after consultant and opinion leader in the Denturist and Lab community.

**PM BREAK**

**2:40pm-3:10pm**  
**COMMONWEALTH**  
**BALLROOM A**

# SPECTRUM DAY HALIFAX

**Alex Chabacevitch, RDT**

**3:10pm - 4:00pm**  
**1 CE**

## **AI Digital Design and Fabricate Dentures & Night Guards**

This session will cover:

1. Detailed instruction on scanning an analog model/impression.
2. Step-by-Step Designing Dentures
3. From receiving digital impressions or by scanning analog models
4. Using existing dentures and converting to new dentures.
5. Step by Step Designing & Fabrication of Nightguards

### **About the Speaker:**

Alex Chabachevich, RDT, was born and educated in Ukraine. He immigrated to Canada in 1991 and discovered an affinity for the Dental Technology Field. Alex, changed his career focus from computers to Dental Technology. He obtained his RDT license in 1998 and soon after, in 2000, he opened his own dental lab in Toronto. The lab is a Crown and Bridge lab that has a strong focus on implantology, aesthetics and digital dentistry. Alex is also partner in Unique Dental Supplies.

# SPECTRUM DAY HALIFAX

**Ryan Swift**

**4:00pm - 4:50pm**  
**1 CE**

## **Holistic Infection Control** Challenging Perspective, Changing Practice.

Holistic infection control refers to a comprehensive and integrated approach to preventing and controlling infections. It encompasses not just the use of personal protective equipment and disinfectants, but also the evaluation and management of the entire healthcare environment. We consider the design and layout of facilities, the handling of hazardous chemistry, documentation, training and personal wellbeing of healthcare workers.

Our program endeavours to share new perspectives on the complex relationships between people, microbes and our environment.

### **About the Speaker:**

Ryan Swift - Regulatory and product development professional with 20 years experience. Expertise in process design, technical writing and infection control. Worked with many dental manufacturers and distributors to achieve Health Canada, FDA and ISO registrations. Designed and brought to market several therapeutic drug products and drug delivery methods. Currently: Vice President @ Micrylium Labs.
