CLINICAL MASTERY. FUNCTIONAL OUTCOMES. LIFE-CHANGING RESULTS.

# CONTEMPORARY AIRWAY DENTISTRY

CLINICAL MASTERY SERIES — FOUNDATION COURSE

The Missing Link Between Growth, Function, Orthodontics and TMJ.

Learn the airway-first diagnostic framework dentists can use to connect growth, function, orthodontics, and TMJ into everyday treatment planning.

PRESENTED BY

**DR. RICK SOORDHAR**

DDS, DABCP, DFAACP, FAACP, AFAAID, Fellowship from the Oral Surgery Academy of General Dentists

DATE

SEP 19, 2026

SATURDAY, 8:30AM - 4:30PM

LOCATION

TBD

TUITION

\$899

+ HST

CE CREDITS

7 CE

AGD SUBJECT CODE: 730

**REGISTER NOW!**

LIMITED SEATING AVAILABLE

IN THIS FOUNDATION COURSE, YOU WILL LEARN TO:

**Assess the airway**

Identify airway limitations and functional issues with confidence.

**Understand growth & development**

Learn how craniofacial growth, oral posture, and tongue function shape the airway and influence treatment outcomes.

**Integrate TMJ & function**

Integrate airway, TMJ, and orthodontic considerations for stable, predictable, and long-term results.

**Apply the 4-Pillar framework**

Use the 4-Pillar Airway-Centric Treatment Plan integrating myofunctional, orthodontics, maxillofacial orthopedics, and TMJ/TMD considerations.

**WHY AIRWAY DENTISTRY?**

- ⊗ Connect growth, function and occlusion
- ⊗ Improve treatment predictability
- ⊗ Better identify airway-related dysfunction
- ⊗ Integrate orthodontics, TMJ and sleep concepts

**IDEAL FOR**

- ⊕ General Dentists
- ⊕ Orthodontic Dentists
- ⊕ Sleep Dentistry Clinicians
- ⊕ TMJ Practitioners

**MEET DR. RICK SOORDHAR**

Dr. Anil Rick Soordhar earned his Doctor of Dental Surgery degree from the University of Western Ontario in 2004 and has since completed over 1,300 hours of advanced continuing education. He is a Diplomate of the American Board of Craniofacial Pain and holds fellowships with the American Academy of Craniofacial Pain, the Academy of General Dentistry (Oral Surgery), and the American Academy of Implant Dentistry. His expertise spans orthodontics, implantology, cosmetic and restorative dentistry, TMJ and headache therapy, sleep apnea treatment, and full-mouth rehabilitation for patients of all ages.

# VITAL PULP THERAPY

CONTINUING EDUCATION COURSE

## COURSE OVERVIEW

This lecture and hands-on course focuses on Vital Pulp Therapy (VPT) as a predictable, evidence-based approach to **preserving pulp vitality in young and mature permanent teeth**.

General dentists are often the first clinicians to encounter deep caries and pulp exposures. In many cases, these teeth can be preserved with vital pulp therapy; however, due to uncertainty in diagnosis, case selection, and technique, patients are frequently referred multiple times or undergo unnecessary root canal treatment—often at a very young age.

This course is designed to bridge that gap by empowering clinicians with the knowledge and **confidence to make the right decision at the right time**.

### Participants will gain a clear understanding of:

- ✔ Why preserving the pulp matters biologically and clinically
- ✔ When vital pulp therapy is indicated—and when it is not
- ✔ How modern materials and techniques improve outcomes

Didactic Lecture

Interactive Q&A

Hands-on Workshop on a Live Patient

**SEP 26, 2026** | **SMILE STUDIO DENTAL** | **\$399+HST**  
8:30AM - 4:00PM | 8500 LESLIE ST, SUITE 220, THORNHILL, ON, L3T 7M8

**CE CREDITS: 6 | AGD SUBJECT CODE: 070**

## SPEAKER BIOGRAPHY

**Dr. Pooneh Mohebbi, DDS, FRCD(C)**, Board-Certified Specialist in Endodontics, Part-Time Faculty, University of Toronto

Dr. Pooneh Mohebbi trained and practiced as an endodontist and faculty member in Iran before completing her specialty training in Endodontics at the University of Toronto. A board-certified specialist (FRCD(C)) registered with the RCDSO, she serves as a part-time clinical instructor at the University of Toronto and practices endodontics in Vaughan.

## COURSE OBJECTIVES

At the end of this course, participants will be able to:

- ✔ Define Vital Pulp Therapy and understand its role in modern endodontics
- ✔ Explain the biological importance of pulp preservation
- ✔ Identify appropriate case selection criteria
- ✔ Evaluate expected outcomes and success rates
- ✔ Understand material selection and clinical protocols
- ✔ Apply VPT techniques in a clinical setting
- ✔ Make confident, evidence-based decisions to prevent unnecessary root canal treatment

# Botox in Dentistry Program *with* Dr. Sky Naslenas

Dr. Sky Naslenas is a practicing orthodontist, educator, and innovator dedicated to advancing the science and art of facial pain management.

By the end of this course, participants will be equipped with the knowledge and skills necessary to confidently integrate Botox treatments into their dental practice, enhancing patient care and expanding their scope of services.

**\$2,295 + HST**

(Includes Breakfast, Break, and Lunch)

**Sept 27, 2026**

9:00am - 5:00pm

7 CE Credits

AGD Subject Code: 780

**Smile Studio Dental**

8500 Leslie St., Suite 220  
Markham, ON L3T 7M8

## COURSE OUTLINE

This course introduces dentists to the essential principles and clinical use of Botox in dentistry. Participants will learn key orofacial anatomy, proper patient assessment, safe injection techniques, and practical skills through interactive sessions and hands-on training with live patients.

*By taking this course, you can earn certification to administer Therapeutic Botox in Ontario.*

## COURSE OBJECTIVES

1. Understand the pharmacology and mechanism of Botox.
2. Identify and describe the anatomical structures of the face pertinent to Botox administration.
3. Demonstrate proficiency in patient assessment and selection criteria for Botox treatment.
4. Master the techniques for administering Botox injections safely and effectively in the orofacial area.
5. Learn how to manage and minimize complications associated with Botox injections.
6. Discuss ethical and legal considerations relevant to the use of Botox in dental practice.
7. Explore the potential applications of Botox beyond cosmetic enhancements, including therapeutic uses in dentistry.

*\* Each doctor is encouraged to bring in their own patient so they can follow up with them in the future.*

## 1-DAY COURSE ON Implant Locator Overdenture

October 2, 2026 • 09:00am to 05:00pm

Sponsored by

Everything You need to Know about Implant Locator Overdenture  
Implant overdenture using locator abutments can improve the quality of life for many completely edentulous patients. However, delivering implant overdenture has its own set of challenges. There are tissue related and implant related factors to consider. The fundamentals of complete dentures still apply to this type of treatment. Common concepts such as determining vertical dimension of occlusion and learning how to find centric relation with confidence will be covered. In addition, a detailed delivery protocol designed by Dr. Leung will be shared to provide a smooth delivery outcome and minimize complications.

 Includes hands-on simulation of delivery and fabrication procedures for implant overdentures with locator abutments.

### \$1099 +HST

7 CE • AGD Subject Code 690

105 Bentworth Ave Unit 1,  
North York, ON, M6A 1P6

### COURSE OBJECTIVES

- ✓ To review treatment options for the Completely Edentulous Patients
- ✓ To learn the different fabrication and insertion protocol for implant overdentures
- ✓ To review the basic concepts on VDO and CR
  - How to evaluate VDO
  - How to find CR with confidence
- ✓ To learn how to troubleshoot complications related to implant overdentures
  - How to ensure the denture does not get locked?
  - How to ensure the patient can remove the denture easily.
  - How to troubleshoot to ensure proper engagement if the attachments do not engage at insertion
  - How to retrieve locked denture

Dr. Beatrice Leung, DDS, MPH, Cert. Pros., Dip ABP, FACP, FRCD (C)

Dr. Leung earned her DDS from the University of Toronto and completed residencies at Boston Medical Center and the University of Pittsburgh, where she also received a Master of Public Health. She is a Fellow of the Royal College of Dentists of Canada and a Diplomate of the American Board of Prosthodontics, and has been in private practice since 2005. Dr. Leung also serves as a part-time Assistant Professor at the University of Toronto and received the 2019-2020 Dr. Bruce Hord Master Teacher Award.

## COURSE DESCRIPTION

This advanced, dentist-focused training program is designed to equip licensed dental professionals with the knowledge, clinical judgment, and technical skills required to perform safe, natural-looking lip augmentation using hyaluronic acid (HA) dermal fillers.

The course combines a structured didactic (theory) module with a closely supervised hands-on clinical session involving live patients, emphasizing facial harmony, reproducible outcomes, and complication readiness within a dental practice setting.

### COURSE OUTLINE

1. Rules and Regulations Around the use of Fillers in Dentistry
2. Review of Lip Anatomy, Aging Process
3. Review of Filler Types and Applications
4. Guidelines and Techniques for Filler Injections
5. Managing Complications

\* Each doctor is encouraged to bring in their own patient so they can follow up with them in the future.

Take the combined Botox in Dentistry and Lip Filler courses for **\$3,900<sup>+HST</sup>**

\*\* Includes breakfast, breaks, lunch, and free parking

### DAY 1 — CREATE VENEERS

8:30 AM- 12:00PM

- The Evolution of veneer technology
- Hands-on workshop for each participant
- Prepare the anterior maxillary 6 teeth utilizing various prep designs
- Take perfect impressions using the cordless technique of D&D

1:00PM – 3:30PM

- Identifying the Three Smile Patterns
- Temporize using the three B.S.C techniques

### DAY 2 — BOND IN YOUR OWN CUSTOMIZED VENEERS

8:30 AM- 12:00PM

- Insertion checklist
- Bond in your own customized veneers

1:00PM – 3:30PM

- The Ten Artistic & Scientific Principles of Smile Design
- Rate a smile using the Modified Dental Aesthetic Index (MDAI)
- Clinical case presentation showing a variety of cases
- Conclusion Q&A Session

9:00AM – 5:00PM

**SHAW LAB GROUP**  
105 Bentworth Ave Unit 1, North York, ON, M6A 1P6

### COURSE ITINERARY

#### DAY 1

- Implant immediacy – Anterior zone
- Implant types & design
- CT scan assessment
- Guided vs non-guided workflows
- Lab prescription
- Fundamentals
- Connective tissue grafting in modern implantology – Zucchelli vs Double-incision technique
- Complication management

#### DAY 2

- Immediate implant placement in the Anterior region – Hands-on
- Papillae preservation
- Crown-driven implantology
- Immediate implant placement in the posterior zone
- EBC zones and concept
- Managing complex aesthetic implant cases
- Palatal dressings
- Sling sutures

## Module 1

### Day 1: Periodontal Disease

- Etiology and diagnosis procedures
- The introduction of the new classification system
- Prognosis and Treatment Plan
- Non-surgical and surgical treatment option
- Periodontal maintenance program
- The principles of functional crown lengthening

#### Hands-On component\*:

- Review Flap and Suturing Principles
- Osseous Resective Periodontal Surgery distal wedge

## Module 2

### Day 2: Soft Tissue Grafting

- Biologic principles and Etiology
- Diagnosis: Old and New Classification
- Indications, Goals and Objectives
- Case selection and treatment plan
- Soft tissue grafting procedures (FGG, CTG)

#### Hands-On component\*:

- Free Gingival Grafting (FGG)
- Connective Tissue Grafting (CTG)

\*You are required to bring loupes and additional instruments to the course, at your own cost.

## Module 3

### Day 3: Hard Tissue Grafting

- Biologic principles
- Goals and Objectives
- Indications and Treatment Plan
- Review different types of Bone grafts and membranes
- Complications

#### Hands on component\*:

- Socket preservation
- Guided bone regeneration for treating periodontal bony defects
